Subject: NA QM Update .

Matt,

We reviewed draft material of NA QM meeting today with Mr. Fukushima. Below are some points I need some assistance. Could you review and I will contact you on Monday to discuss more?

1. KPI Report (second tab for TMS KPI)

- Confirm KPI and targets are correct for TMS items
- Update the Comments Section

2. Hoshin - Request was made for me to indicate what hoshin items would be check at which meeting throughout the year. I need to update my portion.

- Can you provide same information for the TMS Items any requests that you have for the TEMA/TMs items?
- Also, the current agenda shows TMS as presenter for their hoshin items. When we last discussed I said we could do all, but could you let me know your opinion?

3. General

- We will do final review of TEMA material on the 5/21 with Mr. Fukushima. Can you send you latest materials on Wednesday the 20th?
- Can you let me know TMS presenters on Monday?

Thanks,

Brian Bellhorn
